

We extend our thanks and appreciation to all of the photographers who contributed images for this guide. In addition to the images listed below, we have also included historic and recent aerial photographs of each preserve made available online by the Iowa State University (ISU) Geographic Information System (GIS) Facility.

We also thank Heather Craig '09 and Anna Isis-Brown '08 for volunteering many hours to help create the preserve locations map and the individual preserve maps. The aerial photographs used as backgrounds for each preserve map were taken in 2007 and are available online at [http://cairo.gis.iastate.edu/new\\_site/](http://cairo.gis.iastate.edu/new_site/), courtesy the ISU GIS Facility.

- p. 5      big bluestem
  
- p. 5      Indiangrass
- p. 5      Canada wild rye
  
- p. 5      switchgrass
  
- p. 6      little bluestem
